

BRUN MEDICAL

BrunTM

Manufacture company of Brosmed

CDMO Platform Profile

Design, Production, Testing, Quality

- The engineering team of hundreds with senior experience and professional background in materials science, biology, mechanics, chemistry, polymer science and pharmaceutical clinical science. World-leading technology in balloon, catheter and guidewire manufacturing.
- Millions of capacity with top production capabilities for component manufacturing, braiding, precision extrusion, assembly, coating, drug coating and drug formulation.
- Industry-leading laboratory level, with a series of high-end laboratory equipment to support the R&D work. Certificated Provinces level R&D center and CNAS lab.
- Over 20000m² of workshops and laboratories which certified by CGMP and ISO13485 etc. 350+ products registration certificates in worldwide (CE, FDA, PMDA, Korea MOH). Sales and service cover 70+ countries.
